

# Thinix WiFi Hotspot

## System Requirements

Thinix WiFi Hotspot allows you to share a wired or wireless Internet connection and works with your internal wireless adaptor or 3G/4G/USB WiFi adaptor. With secure software you can trust - no spyware, ads, malware, or gimmicks you can enjoy your hotspot without worry.

### These Operating Systems Are Supported:

- Windows 7 Home Premium 32-bit or 64-bit
- Windows 7 Professional 32-bit or 64-bit
- Windows 7 Enterprise 32-bit or 64-bit
- Windows 8 32-bit or 64-bit
- Windows 8 Professional 32-bit or 64-bit
- Windows 8 Enterprise 32-bit or 64-bit

### These Versions of Windows Are NOT Supported:

- Windows XP
- Windows 7 Starter Edition
- Windows 8 RT

Required OS Component: .NET Framework 3.5 from Microsoft (you will be prompted to install this package if needed).

### Adaptor Requirements

A Windows 7 or Windows 8 Certified WiFi adaptor which supports Internet Connection Sharing (ICS) is required. Thinix WiFi Hotspot will detect if your WiFi adaptor is compatible and will alert you if it is not.

### Recommended Windows 7/8 Certified WiFi Adaptors:

- Atheros AR5xxx/AR9xxx cards, driver version 8.0.0.238
- Broadcom 4310-series (in many Dell laptops)
- Broadcom 4321AG/4322AG/43224AG WLAN Adapter, driver version 5.60.18.8
- D-link AirPlus G DWL-G510 Wireless PCI Adapter, driver version 3.0.1.0
- D-Link DWA-140 RangeBooster N USB Adapter, driver version 3.0.3.0
- Dell 1397 Mini-Card (Broadcom), 5.30.21.0
- Dell 1505 Draft N, 5.60.18.8
- Dell 1510 Wireless N adapter (Broadcom) 5.60.18.8
- Dell 1701 Wireless N adapter 6.3.0.7900
- Dell 1702 Wireless N adapter 9.2.0.412
- Intel Centrino Ultimate-N 6300AGN, 14.1.1.3
- Intel Centrino Advanced-N 6200, 13.3.0.24
- Intel Wi-Fi Link 1000, 13.3.0.24
- Intel Wi-Fi Link 5100, 13.4.0.9
- Intel Wi-Fi Link 5300, 13.5.0.6
- Linksys Dual-Band Wireless-N USB Network Adapter(WUSB600N), driver version 3.0.10.0
- Netgear 108 Mbit WG311T
- Ralink RT2870 (in many 802.11n USB dongles)
- Realtek RTL8187B
- Realtek RTL8187SE (with the drivers that came with Windows 7)
- Realtek RTL8188CE
- Realtek RTL8192u with 1370 (Beta)
- Sitecom Wireless USB Adapter 54g WL-608, with Ralink RT2870 drivers, version 3.0.9.0

\*Some USB cards do not support WiFi sharing. Open your network connections and see if you see "Virtual Miniport adapter." If it does not appear, it is probably not supported.

\*Windows 7 Starter Edition is not supported. While all versions of Windows 7 support virtual Wireless LAN adapter (if the machine is fitted with appropriate WiFi hardware), the adapter is of no use under Windows 7 Starter Edition because of the lack of Internet Connection Sharing support.
