

Thinix Business Center PCs & Kiosks

Fully Managed Guest-Use PCs, Boarding Pass, & HR Kiosks

Investing in your hotel is important, but investing in your guests is essential.

Thinix Business Center PCs are the world's leading secure guest-use computer solution. With over 100 million hours of secure uptime with no security breaches, Thinix Business Center PCs have everything your guests need to stay connected, productive, and informed with access to the Internet, various applications, software, printing, and more.

Empower Your Guests

From searching local amenities to printing, our business center PCs are versatile all-in-one systems used for applications such as boarding pass printing stations, as well as hotel lobby PCs, and more. Security and patch management is built into every Thinix Business Center PC at

no additional charge to ensure user privacy is safeguarded and reliable PC operation is maintained. With custom branding, Thinix Business Center PCs are artfully designed to match brand standards at no additional charge.

Main Features Include:

- Fully branded design to match your brand standards
- Built-in security integration to safeguard users with PC "lock down"
- Thinix All-Clear™ privacy protection securely deletes user history when the user's session ends
- Thinix GuestFirst™ Support for technical support needs

"We started looking at Thinix as a way to improve our guest Internet services in our properties and have expanded into business center computers and front office technology support. Their equipment and support is first rate. They have been a great partner for our properties; we use them extensively."
